 Use High Contrast UI 

The image shows the Azure Data Studio application window. The title bar at the top reads "Welcome - Azure Data Studio" and includes standard window controls (minimize, maximize, close). Below the title bar is a menu bar with "File", "Edit", "View", and "Help". A sidebar on the left contains icons for Explorer, Search, Source Control, and a grid icon. The main workspace area has a "Welcome" tab. In the center, the "Azure Data Studio" logo is displayed, featuring a blue cylinder with a white pulse line and a gear. To the right of the logo are three buttons: "New" (with a dropdown arrow), "Open file...", and "Open folder...". Below these buttons is a large, stylized blue hexagonal graphic. At the bottom of the workspace, there are four white cards with blue icons and text: "Create a connection" (with a database icon), "Run a query" (with a document icon), "Create a notebook" (with a notepad icon), and "Deploy a server" (with a server rack icon). The bottom of the window shows a status bar with a purple background and icons for error, warning, and information.
