Getting started   Properties   Recommendations   Monitoring   Tutorials

Start your project

Connect to your database for the first time with a few simple steps.

Allow access
Configure network access to your MySQL database

Configure Networking

Connect
View connection string to learn how to connect with the application driver you use (.NET, PSQL, Python, JDBC, PHP, Node.js, Ruby, PHP, C++)

View connection strings

Samples
Setup a sample database schema to get started

Samples in Github ⧉

Configure your database

Setup configuration for MySQL Flexible server from managing updates, server parameters and backups.

Maintenance schedule

Server parameters

Backup and restore
